Biography

Granny
December 14, 2009

Dumped in a shelter at the age of twelve
Like placing a canister on a shelf
My owner probably passed away
Or went into a nursing home to stay
Whatever the reason
It was not a nice season
Then came DRNA and Christmas was saved
I hope and pray that I am not naïve
After a year in foster care
I still seek a home I can share
With someone that will love me
Someone that will let me, be me
I know I sometime miss the pee pad
And sometimes I am just sad
But most days are good and I am happy
And I am certainly too proud to be yappy
Now dinner time is another thing
For food or treats I can sing

I am a little stiff around the crust
So ramps and stairs are a must
I really don't require much
Just a soft bed and a light touch
Food for my belly and exercise
to keep me healthy, wealthy and wise.
P.S. I love my pearls!

Description: Granny don't mind other dogs as long as they leave her be, kids that are nice and pet her but no running and rough stuff. People are great and she likes to be close. She is house trained and will ask to go out but can't always wait till you get to the door but will use a pee pad. Ginger is great she just needs a nice quiet home to retire. She uses the stair and ramps to get on the couch and the big bed.
